Advancing the Science of Separation.

# Maximize your Control. Boost your Bottom Line.

Introducing Voyager™, the gravity separator that sets new standards in the degree of control. No other separator puts so much adjustment precision in the hands of the operator. Voyager lets you separate more materials, into more grades, more precisely and more consistently than ever. Period.

Improved Deck/Carriage Alignment

Computerized Touch Screen

Heavy Skim Cut-Out Gate

Safer, Enclosed Design

Multiple Fans

Tubular Frame

Flush Mount Filter

Reduced Vibration

Spring Assisted Stone Discharge Regulator

Quieter Operation

Enclosed Design

Locking Removable Access Panels

Improved Air Segregation

Advanced Counter-Balance Design

High Side Blender Trough

Superior Deck Clamping

Improved Rock Traps

4-way Joystick Tilt Control

Mechanical Boot Clamps

Redesigned Eccentric Machinery

Maintenance Access Panels

## INTRODUCING COMPLETE AUTOMATION.

Voyager automates the entire setup and operation procedure. Every parameter that can be controlled, has been automated. Which means you spend less time in training and oversight. Switching back and forth between materials is as easy as recalling adjustment setting 'recipes' from over 20 recallable routines. Rockwell automation insures repeatability, and legendary, state-of-the-art Allen-Bradley electronic controls allows easy integration into the most comprehensive plant automation strategies with basic plug-and-play wiring.

## SMARTER RESULTS FROM A SMARTER DESIGN

The most advanced separator in the world is a work over 75 years in the making. Over that time, our research and engineering has refined the overall design to increase control, boost capacity, improve structural integrity, widen the range of materials, simplify operation and extend durability.

## EXPECT MORE FROM THE OLIVER VOYAGER. YOU WON'T BE DISAPPOINTED.

Add up the numbers. With its outstanding performance, exceptional durability and the longest warranty in the industry (3 years) the Voyager represents your best choice in accurate, reliable, long-term product refinement. It's a Pure Product, Sure Profit equation for fast and reliable ROI.

## ADVANCING THE SCIENCE OF SEPARATION

We know what it takes to raise the bar in gravity separation performance. We were there at the beginning, as the original patent holders, and we're here at the forefront with Voyager, the most advanced technology and performance available.
