

Quality Australian  
made material  
handling and  
storage solutions

**SATAKE**  
Oceania

 **Denny's**

# Satake Oceania's silo brand, Denny's, has been designing, manufacturing and installing silos and grain handling and storage systems Australia-wide for more 60 years.

We engineer tailored, specialised, and end to end solutions for bulk material handling, processing, and storage, from design to construction through to installation and ongoing service, right here in Australia.

Our range of engineered, reliable solutions includes:

- On farm silo storage
- Bulk storage facilities
- Seed cleaning
- Feedlot systems
- Flour milling
- Feed milling
- Port facilities
- Optical sorting
- Turnkey solutions

## Silos

Offering a full range of conical and flat bottom silos, our highly experienced team of more than 60 skilled professionals will work with you, on the ground, to understand your business needs.

- Heavy duty robust design
- Kit silo design available
- Segregated and bulk storage
- Sealed to Australian Standards AS2628-2010
- Australian designed and manufactured
- 5 years warranty on structural and sealing conical and flat bottom options

## 30 Degree Silos

Diameter	Degree	Sheets	Peak height	Auger length 35	Ground clearance	Metric Tonnes 810kg/m <sup>3</sup> @ 5% compaction
2234	30	2	4413	30.96 FT	764	9.2
2234	30	3	5532	37.36 FT	764	12.9

## Accessories

With our local manufacturing workshops based in Penrith NSW and Allora Qld, we offer a full range of accessories and spare parts, ensuring you have reliable, ongoing service for your machinery, long after installation.

- Aeration
- Fumigation
- Roof vents

## About us

Denny's (Previously called Denny's Engineering and Welding Pty Ltd) was established in 1956 and operated as a family-owned business for over 60 years.

Joining in partnership with Satake Oceania in July 2015, we now offer extended services with access to advanced global technology and innovation, while continuing to manufacture from our local base in the small town of Allora in Queensland.

Our highly experienced local team have a unique understanding of the Oceania region and Australian market and conditions, with a strong commitment to high quality on-the-ground service and reliability.

Visit [satake.com.au](http://satake.com.au) to view our full silo, accessories and spare parts range, or contact the team to discuss your business needs.
