

# OM SERIES

## Open Mouth Bag Scale

The OM Series scale utilizes Taylor Products' patented beam scale and is self dampening, and the weight pointer and calibration adjustment are located directly on the beam. The OM Series flow control regulates the speed of material going through the scale. The series includes both manual mechanical and automatic air/electric models.

### Simple but Accurate Weighing on Patented Beam Scale Design

- Up to 12 bags per minute
- 15 lb to 125 lb capacity
- Granules
- Feed
- Seed
- Grain
